CONSISTENTLY

## EXTEND YOURSELF

### **Talent Development Program**

Our Talent Development Program is for students who want to extend themselves and further develop their technique. The program is for the dedicated dancer who is committed, hardworking and passionate about dance. Focus will be on technique, legs, leaps & turns and choreography that extends the TDP students. Students will train with MSJ core teachers plus guest teachers.

A part time program to EXTEND yourself..

More and more we work with the increasing needs of our students who are very focused on improving technique and striving to be the best they can be and so the concept of an after school part time program is born. A class where students can focus on strengthening technique, learning new combos and an industry style class to finish each week with guest teachers who might come for a term, a lesson or intermittently.
